IMPORTANT

Reproduction of this catalogue or parts thereof is only allowed with our explicit permission in writing. Pictorial representations and design are copyrighted. Claims for damages, of any form whatsoever, resulting from details made in this catalogue or from incorrect use, application, storage or handling, are explicitly excluded. Contractual rights and any resulting or related claims based thereon, irrespective of form, initially come into being on the basis of a separate written agreement, in particular on the basis of our general terms of sale and delivery. All former statements lose their validity with the publication of this catalogue. The catalogue is not an operating manual for the use and installation of gaskets. It does not contain any advice in a legal sense. The catalogue neither replaces the constantly applicable technical regulations – particularly for tolerances – nor the installation and maintenance stipulations of the individual engine manufacturer. Also, it is not possible to forego the expertise of those carrying out the installation and application. The individual references made in this catalogue for the installation and the application of gaskets are instructions solely for the technically qualified specialist and are to be checked and verified by them for their suitability in each case. Federal-Mogul accepts no responsibility for application decisions. The contents of the catalogue are not intended to create or substitute any contractual agreement which has to be reserved exclusively to a separate agreement between 2 identified parties, whereby seller can be only one of our Federal-Mogul entities as mentioned on the inside back cover. The right is retained to correct errors and alterations, particularly with regard to amendments in the engine manufacturers' details and stipulations.

Ce catalogue annule et remplace toute édition antérieure. Le catalogue n'est pas une notice d'utilisation et de montage des joints. Il ne contient pas de directives en tant que telles. Le catalogue ne remplace ni les prescriptions techniques, toujours prioritaires, particulièrement pour les tolérances, ni les prescriptions de montage et d'entretien des fabricants des moteurs figurant dans ce catalogue. Il ne peut en aucun cas remplacer les connaissances professionnelles nécessaires pour le montage et l'utilisation des produits. Les remarques données pour le montage et l'utilisation des joints sont exclusivement destinées au professionnel averti et de formation technique, à qui il appartiendra de vérifier la conformité des indications pour chaque cas. La responsabilité quant aux décisions d'utilisation ne peut être prise en charge par Federal-Mogul. Le contenu de ce catalogue ne peut constituer ou remplacer un contrat qui doit faire l'objet d'un document séparé établi entre 2 parties, dont l'une doit être une entité légale de Federal-Mogul (dont la liste figure sur la couverture arrière). Nous nous réservons le droit d'apporter toutes corrections d'erreurs et modifications, suite notamment à de nouvelles données fournies par les constructeurs.
