

Gram Equipment

INGREDIENT FEEDERS

Campaign 2016 - Adding even more value

Gram Equipment ingredient feeders are among the most field-proven in the industry. The leading ice cream producers prefer the IF range when handling delicate and large inclusions, or simply need reliable high capacity performance. Now you can get yours with even further benefits.

TECHNICAL BENEFITS:

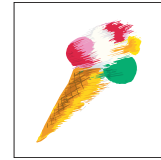

- Class leading dosing precision
- High line pressure tolerant
- Handles all ingredient sizes without damage.
- Piston pump with no metal to metal contact

CAMPAIGN BENEFITS:

- 1 year service agreement included
- Spare parts included for the first year
- Lowest operating cost & TCO in the industry

...ice cream the way you like it

Gram Equipment

IF CAMPAIGN 2016

Ingredient feeders backed up by confidence

Spare parts included

The IF series from Gram Equipment has the lowest running cost in the industry, this campaign makes it even lower, as we supply all needed wear parts free of charge the first year.

Service agreement included

Maintaining the performance of your equipment is important. With the service agreement you are guaranteed annual inspections and thorough training of your staff in using and optimizing the equipment to your best benefit. First year is free of charge.
