

New!

SKF self-aligning ball bearing kit

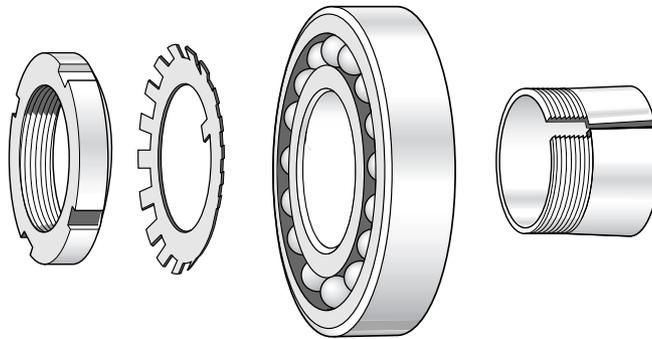

Kit advantages

- Easy and precise mounting
- One item to plan, source and stock
- Always the right components
- All components in SKF quality

Bearing advantages

- Superior in high speed applications
- Minimum maintenance
- Minimum noise and vibration
- Accommodates misalignment better than any other bearing

SKF self-aligning ball bearing kit

Introduction range

Kit designation	Shaft diameter	Bearing designation	Adapter sleeve designation ^{*)}
KAM 1206	25	1206 EKTN9/C3	H 206
KAM 1207	30	1207 EKTN9/C3	H 207
KAM 1208	35	1208 EKTN9/C3	H 208
KAM 1209	40	1209 EKTN9/C3	H 209
KAM 1210	45	1210 EKTN9/C3	H 210
KAM 1211	50	1211 EKTN9/C3	H 211

^{*)} The adapter sleeve includes washer and nut

Kit information

- All components are in SKF quality, providing superior operating life
- For reliable operation, use SKF housing SNL, SAF or 7225(00)
- SKF LGMT 2 grease is recommended for standard applications
- All SABB kits allow a 2,5 degree dynamic angular misalignment
- Global availability is guaranteed through the SKF network
